The Ogdensburg City School District Elementary Summer School Report

September 18th, 2017

The Ogdensburg City School District's Elementary Summer School Program began on Wednesday, July 5th and met every Monday through Thursday over the course of a six-week period ending on Tuesday, August 15th. The summer school program was available for both remediation and enrichment purposes for all interested students. Teachers worked with students to review English Language Arts (ELA) and Mathematics curriculum as well as to prepare the children for the upcoming school year.

Although a number of the boys and girls participating in the program were recommended to attend by their classroom teachers in the spring, many of the children were not recommended by homeroom teachers. Rather, their parents felt as though summer school would help their children enter the following school year better prepared and ready to learn.

Once again, this year the District offered two Extended School Year (ESY) programs to meet the needs of children with Individual Education Plans (IEPs). The Applied Behavior Analysis (A.B.A.) and the Integrated Pre-Kindergarten (12:1:1) classrooms operated on a Monday through Friday schedule in order to meet the New York State guidelines for an ESY program. The A.B.A. classroom was held at Dr. Grant C. Madill Elementary School, while the Integrated Pre-Kindergarten classroom met at John F. Kennedy Elementary School. We also offered a (6:1:1) Special Education classroom for primary aged students for the first time this summer. We strive to meet the needs of all of the students that our District serves and this summer was no exception!

Teachers and teaching assistants were hired based on the number and needs of students registered. The student enrollment numbers this year were consistent with the numbers of years past. There were 221 students enrolled in the District summer program this year.

This year's theme for the Elementary Summer School Program coincided with the NYS Library Association's theme, "*Build a Better World!*" Teachers took the features and theme of this reading program and combined them with reading, writing, math, computer, and art activities to create a

well-rounded summer experience for the children. The teachers encouraged the children to embrace reading as a lifelong adventure and to challenge themselves. During Library classes, many readers were recognized for reaching the “*Build a Better World!*” reading challenges set by the staff in the library.

There was a tremendous amount of excitement and enthusiasm surrounding this year’s summer program. The students at both John F. Kennedy and Dr. Grant C. Madill Elementary Schools were treated to a Water Day once again this year courtesy of the Ogdensburg Fire Department. A number of teachers took their students on field trips to local attractions such as the Ogdensburg Police Department, the Ogdensburg Fire Department, the Ogdensburg Public Library, and the Ogdensburg City Pool. The students enjoyed the opportunity to learn about our community and meet some of the people who make it such a wonderful place to live.

It is our sincere hope that with your support, we will be able to continue to offer the summer program in the summer of 2018. As a result of this enriching program, many children in the district will be well-prepared for the 2017 – 2018 school year. Thank you for your continued support of the Ogdensburg City School District’s Elementary Summer School Program!

 There is one Library teaching assistant and one Computer Lab teaching assistant.

The Ogdensburg City School District

Elementary Summer School Report

September 18, 2017

Teachers worked with students to review English Language Arts (ELA) curriculum.

Teachers took their students on field trips to local attractions.

Students researched different types of bridges and then shared their findings with their classmates.

Teachers worked with students to review English Language Arts (ELA) and Mathematics curriculum.

After reading "If you Give a Dog a Donut," written by Laura Numeroff and illustrated by Felicia Bond, the students worked to develop Language Arts skills. They even had donuts for a snack!

Teachers worked with students to review Science curriculum.

After researching different types of bridges, students had the opportunity to build their own bridge.

The teachers encouraged the children to embrace reading as a lifelong adventure and to challenge themselves.

After reading “Pete the Cat and His Magic Sunglasses,” written by Kimberly and James Dean, the students made magic sunglasses of their own.

The students in Jr. Kindergarten – Grade 2 will be treated to an O.C.P. production of “Pete the Cat” in the George Hall Auditorium on September 26th.

Teachers took their students on field trips to local attractions.

The students enjoyed their field trip to the
Ogdensburg Police Department.
They even had the opportunity to meet
McGruff the Crime Dog!

Teachers took their students on field trips to local attractions.

The students had a fun (and wet) trip to the Ogdensburg Fire Department!

The boys and girls enjoyed their visit to the Ogdensburg Public Library!

There was a tremendous amount of excitement and enthusiasm surrounding this year's summer program.

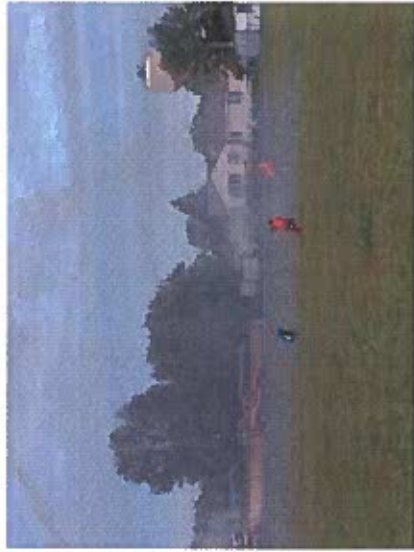

Water Fun Day at Kennedy School, courtesy of the Ogdensburg Fire Department, was a blast!

The ice cream and sno-cones were great too!

There was a tremendous amount of excitement and enthusiasm surrounding this year's summer program.

Water Fun Day at Madill School, courtesy of the Ogdensburg Fire Department, was awesome!

The ice cream and sno-cones were delicious too!

It was a great summer!

Thank you for your continued support of the Ogdensburg City School District's Elementary Summer School Program!
